

The Organizer

Megálló (Stop) Group Foundation

Our Foundation – founded by former drug addicts in 1997 – offers Community-based Rehabilitation in the 8th district of Budapest.

In our therapeutic community we strengthen our health awareness, learn and practice in daily contact resulting moral and other standards and strive for responsible coexistence skills.

Sport and Football are both in Therapy and Prevention an integral part of our common activities. Like any other possible means we use it to activate and support addicted people.
